Member Spotlight

Dominique Meyer

Dominique is a junior majoring in biomedical engineering. She is involved with Varsity Track and Field, Beat Therapy, Partners in East St. Louis, Chemistry PLTL, and SWE exec board. This past summer she completed chemistry research on nanopolymer

applications in conductive thin films for use in flexible electronics and capacitive energy storage. After college she is hoping to find a job in a medical related field before heading off to medical school!

Get Pumped for GET [STEM]ULATED

This semester SWE has partnered with the Hawthorn Leadership School for Girls to help young aspiring students learn more about STEM through hands-on engineering activities. This is a bi-weekly program occurring **Thursdays from 3:15-4:30 PM.**

If you are interested in being a part of this awesome community service outreach program then please fill out the form below with your information!
